

Expressions Of Interest for joining Coventry Women's Partnership Wider Steering Group

Coventry Women's Partnership is pursuing an ambitious plan to ensure more women in the city feel supported in safe environments, empowered, and believed. Can you help support this ambition?

The partnership led by FWT with partners Coventry Haven Women's Aid, CRASAC, Central England Law Centre Coventry and Kairos WWT are working together to break down barriers for women in accessing crucial services and make engaging with support easier.

This work builds on a successful three-year pilot in which more than 800 women were supported. You can read more through our Social Return on Investment report, which is available on request. The project pilot received national recognition for our innovative approach and contributed to the publication of six reports by The Women's Budget Group.

We are now looking to develop our approach to strengthen our strategic reach and partnerships by inviting stakeholders to join our wider Steering Group.

We want to bring together key stakeholders to share knowledge of good practice, advocate for women and services and to further support the influence of women's voices across the city. The group will also support ongoing funding and development objectives. ***We are looking for representation across sectors including Statutory, NHS, Voluntary, Universities, MP's and any stakeholder who can support our objectives.***

This wider steering group will meet quarterly. If you are interested in joining the group, please send an EOI stating your interest, and the skills and experience you can share to further the aims of the partnership, to Faye Pettitt, Coventry Women's Partnership Manager faye.pettitt@fwt.org.uk or call 07538 092997 by 15th July 2021

We will review all EOI received and contact you to discuss the next stages.
