

My Success Story

I first met Tirth at the Job Shop; I was a shy person lacking confidence. She was teaching UK Online basic computer sessions, she became my tutor. She's very helpful and patient, accommodating every body's needs. She helped me to learn the basics of computer such as Internet Safety, Online Searches, Job Hunting online, Jobs and Interviews and Online Forms. She supported me to update my CV and learn to write covering letters, she also encouraged me to do voluntary work because I was having difficult time finding jobs.

I started doing voluntary work at Foleshill Women Training Centre on 3rd September 2014 and met lots of women from different cultures. I also attend workshops - Skills for life, plus other courses. I also volunteered in reception at the centre which gave me more confidence with my IT skills. These courses have helped me to have more confidence in myself.

I started looking for a new career something that is challenging but a rewarding job, I am glad to say that I have now found a job. I have been offered a role as a Support Worker.

I will shortly be starting my new job after my CRB checks.
